# Other Records

This section includes:  
Any other records that are not  
included in the sections above  
but are important for you to  
reference for your child.

This section includes:

# Exceptional Advocacy Services

**Exceptional Advocacy Services offers full service, expert special education, section 504, and disciplinary advocacy for students across Georgia, Alabama, Kentucky, North Carolina, California, and Virginia, including Department of Defense (DoDEA) schools. The process is often intimidating, frustrating and confusing for parents but we can help you every step of the way.**

## Full Service Advocacy:

The three cornerstones of advocacy are:

Records review, consultation and meeting attendance.

To conduct a records review, we will help you obtain a copy of your child's educational records and conduct a thorough records review to understand your child's unique educational history and to aid in developing a course of action.

During our client consultations, we meet with the family to provide support, advice and to develop a course of action. We can help with drafting parent concern letters, creating documentation, writing effective goals and accommodations, preparing for meetings, and reviewing school documents.

Finally, we love supporting families within the school by attending meetings with you! With Exceptional Advocacy Services you will have an expert advocate by your side, facilitating the process, guiding you, and getting results. We can assist you during eligibility meetings, domain meetings, IEP meetings, 504 meetings, manifestation meetings, transition meetings, parent teacher conferences, mediation, tribunals and more! We are based out of Columbus, Georgia, however we have the ability to attend any meeting virtually.

## Advisement Meetings:

EAS will provide, to the best of its ability, accurate up-to-date information about special education laws and provide strategic planning guidance, based on the student's special educational needs, to assist you in developing an appropriate educational program for your student. Such assistance and supportive services within the selected service time may include, but are not limited to: review of records, assistance in preparation for school meetings, development of a parental concerns letter, collaboration on the development of your student's IEP or 504, review of evaluations or data collection, and preparation of state complaints. All services provided, regardless of time selection, will occur in a single session at a mutually agreed upon date and time via a virtual meeting platform.

If you have any questions or concerns about the services or payment options outlined above, please contact us to learn more about how we can make your child's educational experience exceptional.
